PETITION FOR COPY OF RECORDS

UNDER THE FREEDOM OF INFORMATION ACT

Now comes petitioner, Donald W. Alexander, pro se, and request this court to grant this petition for a copy of medical and administration records because it is petitioners only way, and right, of obtaining his records and in support of this petition states:

1. Over the past 6 months petitioner has requested to review and/or copy his medical records with no success.
2. Also, petitioner has filed several written request to review and/or copy his medical and admin. records which has been totally ignored.
3. Petitioner needs these records to prove his claims are service connected. Petitioner was injured due to scaffolding collapsing and a spinel that caused his nervous system to go

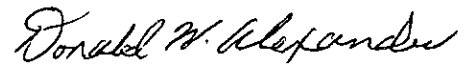

haywire. No one, in the Veterans Administration, seems to know what I am talking about. The veterans Admin. Tells me to submit proof when they already have the proof. The V.A. sent petitioner a letter stating they would let him know when he could review his records as soon as they could remove all records that he could not see by law. No one can tell petitioner what this law number is. The Navy, and the Veterans Admin., are doing their best to keep the truth away from every one. As usual the V.A. acts like they have something to hide and they do. I need these records to file a claim in this court.

4. After repeated requests the V.A. sent some papers from mile case file. However, there was very little information that I needed. There were copies with a date showing one year and a copy of another paper dated 2-4 years later. There were no DECLARATION OF STATUS OF DEPENDENTS, FINANCIAL STATUS REPORT OR DECLARATION OF MARITAL STATUS 1998 THROUGH 2006.
5. Cynthia Angelica filled a REQUEST FOR APPROVAL OF SCHOOL ATTENDANCE for Alison Riddell, dated 4/3/00. Cynthia married Joseph Angelica in 1998 and was not entitled to any money for Alison Riddell. Cynthia signed the request, C. ALEXANDER, a fictitious name. Cynthia received money from the V.A. falsifying V.A. forms. This is fraud and the V.A. knew she was falsifying these records because petitioner sent the V.A. a copy of her divorce at least 3 times. There was no copy of Cynthia's divorce from petitioner in the papers I received from the V.A.

CONCLUSION

The time has come for this court to intervene in this issue because it is the only way the government can be forced to release the records that will prove what they have been hiding from me and the American people. They withheld the fact, for 27 years, that a torsion testicle can destroy the testicle. This action could give relief to a lot of veterans that are suffering because of the ADJUDICATION DEPT. of the Veterans Administration.

Respectfully submitted,

DONALD W. ALEXANDER
